Job Title

Blockchain Developer

Location

Scotland, United Kingdom

Job Type

Full-Time, On-site, MEADHANAN Division

About Us

Mayside Partners Limited is a dynamic and innovative venture capital company based in Scotland. As part of our MEADHANAN Agency, we are committed to driving digital transformation through cutting-edge investments, including blockchain solutions. We are seeking a talented and motivated Blockchain Developer to join our MEADHANAN team and help shape the future of decentralised technologies.

Job Description

As a Blockchain Developer at Mayside Partners Limited, you will be at the forefront of designing, developing, and implementing blockchain solutions that leverage the latest technologies to solve real-world problems. You will work in a collaborative and fast-paced environment, contributing to the growth of our blockchain division.

Key Responsibilities

Design, develop, and maintain blockchain solutions, including smart contracts and decentralized applications (DApps).

Collaborate with cross-functional teams to gather and analyse requirements for blockchain projects.

Implement and optimize blockchain protocols, ensuring high security and scalability.

Explore emerging blockchain technologies and propose innovative solutions.

MAYSIDE PARTNERS
VENTURE CAPITAL
www.mayside.com

Troubleshoot and resolve blockchain-related issues.

Conduct code reviews and ensure coding standards are met.

Stay up to date with industry trends and best practices in blockchain development.

Requirements

Bachelor's or Master's degree in Computer Science, Software Engineering, or a related field.

Proven experience in blockchain development, with expertise in blockchain platforms like Ethereum, Hyperledger, or other distributed ledger technologies.

Strong programming skills in languages such as C++, Solidity, Go, or Rust.

Proficiency in developing and deploying smart contracts.

Knowledge of consensus algorithms, cryptography, and security principles.
Experience with blockchain development tools and frameworks.

Familiarity with decentralised applications (DApps) and blockchain ecosystem components.

Strong problem-solving and analytical skills.

Excellent communication and teamwork skills.

Preferred Qualifications

Blockchain certifications or relevant training.

Experience with blockchain development on a public or private network.

Knowledge of Web3.js, Truffle, or other blockchain development libraries.

MAYSIDE PARTNERS
VENTURE CAPITAL

Experience with blockchain integration in real-world applications, such as supply chain, finance, or healthcare.

What We Offer

Competitive salary c£120-150k (annual) and a comprehensive benefits package.

Opportunity to work on cutting-edge blockchain projects.

Collaborative and innovative work environment.

Professional development and training opportunities.

A chance to make a significant impact in the blockchain industry.

If you are a passionate blockchain developer looking to join a forward-thinking company and contribute to the growth of blockchain technology, we encourage you to apply. Be a part of a dynamic team that is pushing the boundaries of what blockchain can achieve.

Application Process

To apply for this position, please submit your CV and a cover letter detailing your relevant experience to hr@mayside.com or via the link on our website, including why you are interested in joining our team. We look forward to reviewing your application and considering you for this exciting opportunity in Scotland.
