Job Title

Website Developer

Location

Scotland, United Kingdom

Job Type

Full-Time, On-site, MEADHANAN Division

About Us

Mayside Partners Limited is a dynamic and innovative company based in Scotland, dedicated to delivering cutting-edge web solutions to meet our group companies' unique needs. We are seeking a talented and creative Website Developer to join our MEADHANAN team and help shape and contribute to our mission of providing high-quality web development services.

Position Overview

We are looking for a skilled Website Developer to be based in-house at our Scotland office. As a key member of our MEADHANAN team, you will play a crucial role in creating, maintaining, and enhancing websites for our diverse range of companies. Your primary responsibilities will include designing, coding, and implementing web solutions that are both functional and visually appealing.

Key Responsibilities

- **Website Development:** Develop and maintain responsive, user-friendly websites that meet our specifications and industry standards
- **Front-End Development:** Implement user interfaces and user experiences, ensuring a seamless, attractive, and intuitive design
- **Back-End Development:** Build server-side applications and databases to support the front-end functionality
- **Collaboration:** Collaborate with cross-functional teams, including designers, content creators, and project managers, to ensure project goals are met

- Testing: Conduct thorough testing to identify and fix bugs, optimise performance, and ensure website security
- Responsive Design: Ensure websites are compatible with various devices, browsers, and screen sizes
- Content Management Systems (CMS): Work with creating our own custom CMS platform as required
- SEO Integration: Implement on-page SEO best practices to enhance website visibility and rankings
- Team Communication: Communicate effectively with other team members to gather project requirements, provide updates, and address feedback
- Documentation: Maintain clear and organised documentation of code and project details

Requirements

- Bachelor's degree in Computer Science, Web Development, or a related field (or equivalent work experience)
- Proficiency in HTML, CSS, JavaScript, and other relevant web development technologies
- Strong experience with front-end frameworks and libraries (e.g., React, Angular, Vue.js)
- Proficiency in back-end development languages (e.g., PHP, Python, Ruby, or Java) and related frameworks (e.g., Node.js, Express)
- Experience with version control systems (e.g., Git)
- Understanding of responsive web design and cross-browser compatibility
- Knowledge of web security best practices
- Familiarity with content management systems (CMS) and e-commerce platforms
- Excellent problem-solving skills and attention to detail
- Strong communication and collaboration skills
- Ability to work in a fast-paced environment and meet project deadlines

What We Offer

- Competitive salary based on experience, c£45-55k (annual)
- Opportunities for professional development and training
- Friendly and collaborative work environment
- Health and wellness benefits
- Flexible work schedule options
- Located in the heart of beautiful Scotland

If you are a talented Website Developer with a passion for creating exceptional web experiences, we encourage you to apply for this in-house position. This is not a remote position. Join our MEADHANAN team at Mayside Partners Limited and help us bring our digital visions to life.

Application Process

To apply for this position, please submit your CV and a cover letter detailing your relevant experience to hr@mayside.com or via the link on our website, including why you are interested in joining our MEADHANAN team. We look forward to reviewing your application and considering you for this exciting opportunity in Scotland.
